LOGNOTE -- Acting Chief, Operations Group, 2 October 1986

1. [] Following notes are from the D/FBIS' staff meeting:

25X1

-

25X1

- The schedule for moving into the new Headquarters building at Langley has slipped to 1988-89 occupancy. Blame is being placed on the James River flood, which damaged one of our suppliers.

25X1

- Office of Personnel is planning briefings to answer questions on the new secretarial payscale. Supervisors are also asked to attend. []

25X1

- GE is leasing space in the Metro Building, which will help ease the crowding in Ames. []

25X1

- INTERNET will be turned on as soon as possible, but delays here and in Panama make it likely that we will be well into CY-87 before it is activated. []

25X1
